

To help keep the skin on your feet soft, supple and healthy, always use CCS Foot Care Cream. It's dermatologically tested, lanolin-free and used by professionals.

Use CCS Foot Care Cream twice a day to begin with, then as often as you need. Massage it gently into your skin to help keep it in good condition.

You too could have
a body like mine.

With a little professional help.

To help keep the skin on your feet soft, supple and healthy, always use CCS Foot Care Cream. It's dermatologically tested, lanolin-free and used by professionals.

CCS's professionally inspired formulations work with your body's natural defences to condition your skin and help keep it feeling and looking good.

CCS Foot Care Cream is an effective moisturiser that softens hard dry skin, leaves it soft and smooth, and helps prevent further problems.

Use CCS Foot Care Cream twice a day to begin with, then as often as you need. Massage it gently into your skin to help keep it in good condition.

For extra hard and thickened skin, and sore cracked heels, use CCS Heel Balm – it's clinically proven to work in 7 days, soothing, smoothing and helping heal your skin.

**PROFESSIONAL
FOOT CARE**

Whenever you visit your chiropodist or any good pharmacy, the chances are you'll come across CCS Heel Balm and CCS Foot Care Cream. This is because their formulations are professionally inspired, dermatologically tested and very effective. They help keep the skin on your feet smooth, supple, looking good and healthy. In the case of CCS Heel Balm, it's clinically proven to control cracked heels. That's why chiropodists recommend CCS, but don't just take our word for it:

Let your feet do the talking.
